

Let a dream turn into reality!

We all aspire to freedom in all of its manifestation. Mobility and space – those are the elements of freedom. As you soar over the water's unlimited expanse in a light and aerodynamic BRIG boat, freedom is literally yours.

Confide in your instincts. Do not deny yourself one of the greatest sensations of being alive...

DINGO

is not too large, but a vivid gem
in a magical BRIG necklace

The **DINGO** – is a wide range of BRIG boats made with the purpose to be within easy access: in the car trunk or yacht locker. Lightweight and easy to assemble, the Dingo is ready for use in a flash. ¶ As if by a wave of a magic wand, the small bundle in your hands will turn into a spacious and comfortable boat. The boat for two in an unhurried voyage into the sunset... ¶

DINGO ranges from 2 to 3.3 meters in length and is offered with 3 types of flooring:

Slatted deck that allows assembly without extracting the flooring from the boat, for those who need compactness and portability;

Full rigid deck with inflatable keel ensuring the rigidity and excellent seaworthiness... for greater safety of movement while motoring, especially for those with children and pets;

Inflatable flooring (air deck) perfectly harmonizing ease of assembly with excellent navigability... for those to who light weight is the top priority.

And above all – even the smallest Dingo has the BRIG mark of quality.

* The weights indicated for the DINGO exclude wooden seats, oars, foot pump and repair kit.

A reinforced rubbing strake allows easy mooring without damage. Bow and side tow rings for different kinds of towing. A transom one-way drain valve for easy water draining of the cockpit either on the way or on a ship-board. An all around lifeline to serve as support for passengers as well as for carrying the boat by hand.

Mountable rigid seats for both passengers and a person at the wheel are provided for at the most models. Two mounted rigid seats allow to change places without relocation of the seats and to move oneself from the outboard motor tiller to the oars. All boats are equipped with split big-blade oars. Reliable rowlocks, which in combination with the rigid seats, provide comfortable rowing.

If necessary, DINGO boats can be equipped with overall cover, storage bag, lifting slings to use with pulley blocks.

BALTIC

boats are for those who demand portability without compromising comfort and safety

The **BALTIC** is an all-purpose boat for family fun, fishing and aquatic sports. Their increased tube diameter and deep V bottom ensures the highest stability even in stormy weather. As well, the reinforced synthetic fabric will add to your safety. ¶ The compact dimensions of the carry bags in which your Baltic is packed will easily fit inside the trunk of any ordinary car. ¶ Light and sporty, simple and reliable – this is the best boat in which to spend your time in an active manner. ¶

The BALTIC ranges from 2.65 to 4.6 meters in length and is offered with 2 types of flooring:

Full rigid deck – guarantees rigidity and permits the installation of a steering console and other equipment;

Inflatable flooring (air deck) – perfectly harmonizing ease of assembly with excellent navigability... for those to whom light weight is the top priority.
